

## CASINO DU LIBAN

### ♠♥♦♣ AMERICAN ROULETTE ♠♥♦♣

The game of Roulette is played with a wheel which has been divided into 37 equal compartments, 0, 1-36 inclusive, and one ball.

The wheel is spun in one direction by the dealer who then spins the ball in the opposite direction.

The players can place their bets on the layout either before the ball is spun or during the time that the ball is spinning but may not place any bets after the dealer has announced not more bets.

The players can either place their bets on a single number or on any of a number of positions on the table covering different combinations of numbers.

When the ball has settled in a number, that number is deemed to be the winning number and the players are paid out at the appropriate odds by the dealer. (See table of Roulette odds)

Any bets not associated with the winning number are lost.
